FLOWERING BULBS

THAT USHER IN THE SPRING

Must Be Ordered Not Later Than July 15

If you want the choicest Daffodils, Tulips, Hyacinths, and the many other beautiful flowering bulbs that bloom indoors throughout the winter months and outdoors all through the early spring, you should have us import them for you direct from our growers in Holland, where nearly the entire world secures its supply of bulbs. (even if for only a small

By placing your ORDER NOW quantity) you will be justified, for you will not only get the first pick of the season's stock, but at greatly reduced prices.

*Bulbs must
be ordered
not later
than July 15*

These Dutch Bulbs are absolutely hardy and for next spring flowers must be planted this fall. Plant them freely and you will surely be charmed with the beauty of their flowers. You will never regret it, for it can be truthfully said there is no other flower that demands so little care and gives so much in return.

To get the best attention your order should be sent to us now or not later than July 15th. It will then be sent with our many other early orders to Holland, and immediately upon arrival of bulbs will ship to you with full instructions how to plant them. We guarantee safe arrival and that the bulbs will be perfectly fresh and in good condition. They are not of a perishable nature and not injured even if planting is delayed until late autumn. You need not pay for them until after delivery if you do not care to. (References required from new customers). Five per cent discount for cash with order.

**WAGNER PARK
NURSERY COMPANY**

Florists - Nurserymen
Landscape Gardeners

SIDNEY, OHIO, U. S. A.

Important to Purchasers *Read This Carefully*

THE PRICES quoted in this catalogue on Hyacinths, Tulips, Narcissus and Crocus, etc., are special, and to make these extremely low prices orders must be placed not later than July 15. We will ship at proper season for planting, and you need not necessarily remit until after delivery. However, those who send remittance with order may deduct 5 per cent as a cash discount.

Terms Where orders are not accompanied with remittance, we ask reference from those who have never had an account with us. We mail bills immediately after shipment and expect payment as soon as stock is received.

Early Orders As we import these bulbs direct we must have your order early, and the earlier your order is sent in the better we can fill them. Many have already placed their orders for their supply in advance of this issue.

Club Orders By several friends or neighbors combining their orders is an advantage, as you can then order in larger quantities at lower rates, also save on transportation charges. Quantity rates as priced in this catalogue are, six plants of any one variety at dozen rates. Twenty-five plants of any one variety at hundred rates. Less quantities are at single rate prices unless specially noted. Our complete stock makes it possible for customers to secure anything needed (for lawn and flower beds, kitchen garden or conservatory) in one shipment, which is a large saving that would otherwise be incurred when ordering from several firms.

Shipping Facilities We are admirably located for making shipments, North, East, South or West, having the C., C. & St. L. Railroad East and West, the C., H. & D. Railroad North and South; also have the Western Ohio Electric, all of which connect with various lines. We have the Wells-Fargo and American Express

Companies, which make our shipping facilities first-class for any direction, thus assuring you of prompt and most direct service. When no instructions are given, we use our best judgment as to how to ship.

Parcel Post Shipments Bulbs and plants can now be sent by Parcel Post, yet in many instances express is cheaper except for very small parcels. When it is an advantage to our customers to send by Parcel Post we do so and send bill for actual amount of postage paid. Prices on the Specials of this catalogue do not include delivery.

Express Shipments This is a most satisfactory method of transportation, as it enables us to give good values. We do not prepay express shipments, but if goods are miscarried, they can easily be traced, and if damaged in transit, more easily rectified. When sent by express, we usually send some extras; again, plants are handled by express companies at special rates.

Freight Shipments This method of shipment is advised only with heavy and bulky stock.

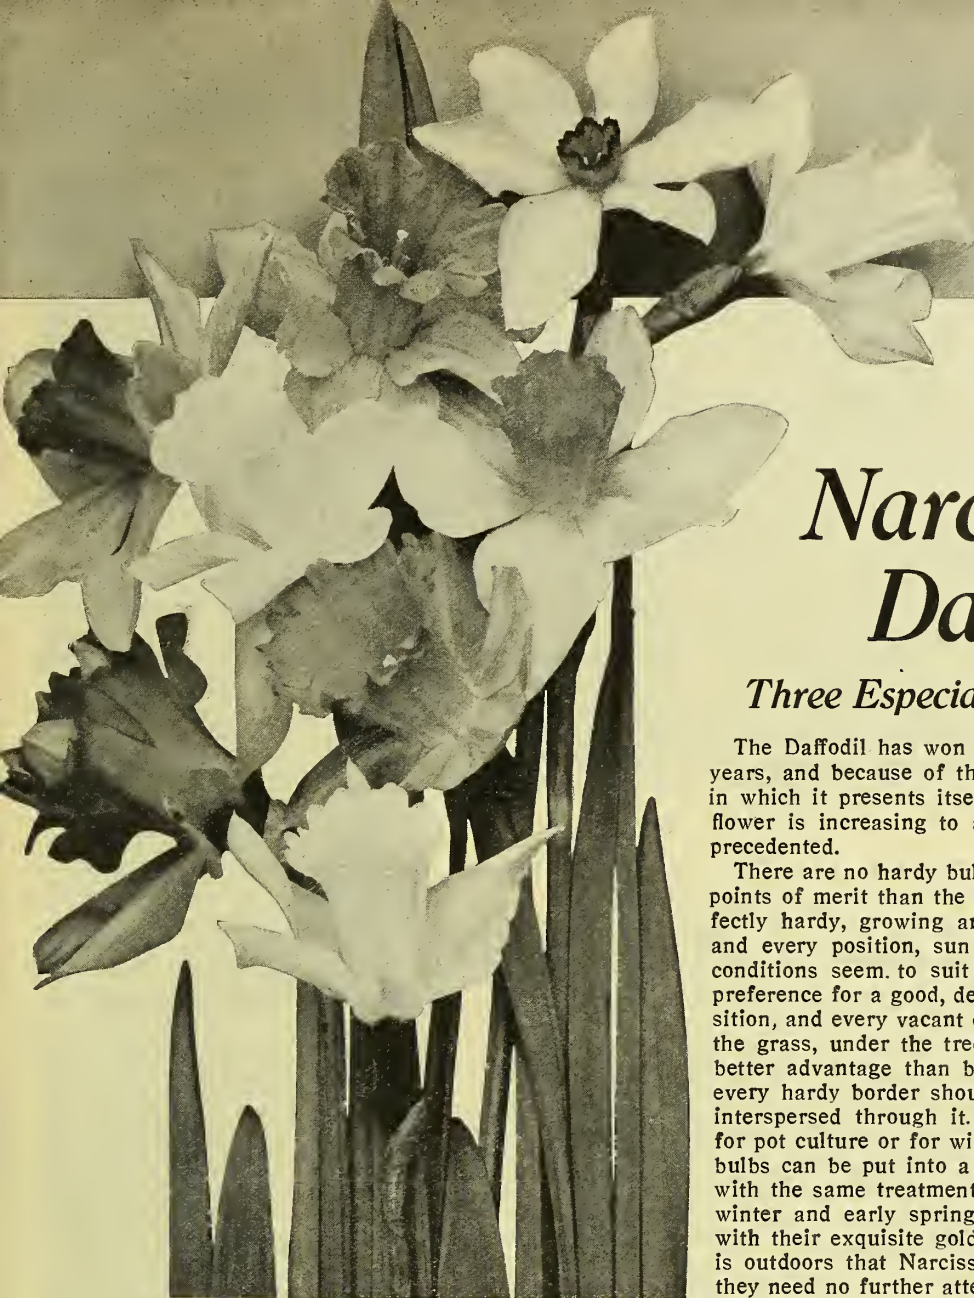

Guarantee Most failures with plants and bulbs growing are due to causes entirely beyond our control, such as unfavorable weather and soil conditions, too deep or too shallow planting, etc., which renders it impossible for us to guarantee success. We take all possible care to supply such stock as will, under proper conditions, produce results satisfactory to the grower. We guarantee stock to be true to name, and will, upon proper proof, replace any that may prove untrue.

Remittances Remittances should be made by Post Office Money Order, Registered Letter, Bank Draft, or Express Company Money Order. When sending order, write your name and address plainly, that there may be no mistakes or delays in making shipments.

Wagner's SUPERB Narcissus or Daffodils

Three Especially Fine Varieties

The Daffodil has won merited recognition in recent years, and because of the beautiful forms and colors in which it presents itself today the demand for this flower is increasing to an extent that is almost unprecedented.

There are no hardy bulbous plants which have more points of merit than the Narcissus or Daffodils. Perfectly hardy, growing and doing well in almost any and every position, sun or shade, moist or dry. All conditions seem to suit them, although they have a preference for a good, deep soil and a semi-shaded position, and every vacant corner in the garden, amongst the grass, under the trees, etc., could not be used to better advantage than by filling with Narcissus; and every hardy border should have a number of clumps interspersed through it. They are equally desirable for pot culture or for winter flowering. Three or four bulbs can be put into a 5- or 6-inch pan or pot, and, with the same treatment given to Hyacinths, the dull winter and early spring months can be made bright with their exquisite gold and silver blossoms. But it is outdoors that Narcissus do best, and once planted they need no further attention, the clumps multiplying and giving larger and finer results each year, and from an original planting of a few hundred bulbs, in two or three years may be cut thousands of flowers without missing them.

Narcissus Emperor An immense flower; the trumpet is a clear golden yellow, perianth deep primrose; often three and one-half inches across. For bedding or for growing in pots it is unequalled, and also is much in demand for cutting. Mammoth size bulbs, 45c per dozen; \$2.75 per 100; \$25.00 per 1,000. Regular size bulbs, 35c per dozen; \$2.35 per 100; \$21.00 per 1,000.

Narcissus Von Sion The famous old Dutch Daffodil; flowers golden yellow. This variety is used in enormous quantities for forcing; also excellent for bedding in conjunction with Hyacinths, flowering at the same time. Mammoth size extra selected bulbs, 50c per dozen; \$3.00 per 100; \$25.00 per 1,000. Regular size bulbs, 40c per dozen; \$2.50 per 100; \$20.00 per 1,000.

Narcissus Poeticus (Pheasant's Eye) This is the old-fashioned favorite type, with white flowers, the cups margined with red and with rich, spicy odor. All do well in the open border, are perfectly hardy, and once planted take care of themselves. Blooms in May; very fragrant. Mammoth size bulbs, 20c per dozen; 75c per 100; \$6.50 per 1,000. Regular size bulbs, 15c per dozen; 65c per 100; \$5.50 per 1,000.

Wagner's Reliable Bulbs

GLORIOUS, brilliant Dutch bulbs, that will flower all winter indoors and all spring in your garden with a riot of color and a bold beauty that will charm you. If you want the best of all these, sturdy, vigorous and fresh from their native soil, have us import them for you now, for planting next fall. To the lover of flowers, there is no class of plants so much prized as those which are produced from bulbs. The reason is easily found, because within the bulbs is stored all the future glory of leaves and flowers, only requiring the simplest culture to develop them in their highest perfection. A large number of them produce their flowers in very early spring, when the rest of nature is asleep. Then it is that a clump of Snowdrops, Scillas or Chinodoxas impart to the garden an air of warmth and cheer that cannot be accomplished in any other way. Following these modest flowers come the showier Crocus, Narcissus, Hyacinths, Tulips, etc., in all their dazzling colors, keeping up a continuous display well into the summer. With no other material can be secured such a wealth of charming flowers of infinite variety of form and coloring, with so little trouble and at so small an outlay.

To succeed with bulbs it is necessary to begin right, by setting sound bulbs of good blooming size, and we would warn intending purchasers against buying cheap, undersized bulbs and expect fine results. Our sources of supply are the best in the country, the leading growers of the world having for years supplied us with their choicest stock.

A Few Cultural Hints

WHEN TO PLANT.—To the beginner we would emphasize the fact that Autumn and not Spring is the time to plant all kinds of spring-flowering bulbs. A few sorts of Lilies, which are noted in the catalogue, do not mature until October and November, and are forwarded as soon as ready. These can be planted even if they arrive late if ground is prepared and covered with manure before it freezes.

OUTDOOR CULTURE.—As a general rule, the bulbs should be planted in October and November, so that the roots may make a good growth, but they can be set out later if the ground is not frozen. They require a moderately rich soil that has been well manured for previous crops, or else apply well-rotted cow or sheep manure or bone meal. (Fresh manure is injurious to bulbs if it comes in direct contact with the bulbs). The soil should be well drained, as no good results can be obtained without free drainage. In planting, the bulbs should be placed from an inch to four inches below the surface, according to the size of the bulb. A good rule to go by is to cover the bulbs with soil one and one-half times their own depth.

When the ground freezes hard the bed should be covered with three or four inches of leaves or litter, which should be removed in early spring. Too early and heavy covering starts

the tops prematurely, which are frequently injured in March by freezing and thawing.

INDOOR CULTURE.—Bulbs intended for blooming during the winter can be planted from September until late November—the earlier the better—in pans, pots or boxes, and be left in the open air, covered with a few inches of ashes or soil, until the earth begins to freeze, and then placed in a cool greenhouse, cellar or room at a temperature of 50 degrees. They will need occasional moderate watering after they are brought inside. Or the pans, pots or boxes may be placed at once after potting in a cool, dark cellar, watering well and cover the same as above. The whole success of pot culture depends upon getting the roots well established in the pots, at a low temperature of say 40 to 50 degrees, before you begin to force the tops at 60 degrees or over. After this the bloom is easily developed by giving light and water, and one can have a supply of flowers from Christmas until after Easter by regulating the time of bringing them to the light.

NOTE.—The above cultural hints apply especially to the latitude of Ohio. In the South it is quite possible to plant out bulbs as late as Christmas, while at points north of Ohio they should be planted as early as possible after the first killing frost.

Wagner's Named Single Early Tulips

The Tulip is always attractive from its beauty and brilliancy of color, and is one of the popular early spring flowers. A few bulbs scattered here and there produce but little effect, but when planted in masses or in groups they become at once grand and brilliant, and eclipse in variety of coloring and picturesque effect almost any other flowers. Tulips require cultural

treatment similar to Hyacinths; the bulbs, being smaller, should not be planted so deep. When grown indoors, put six bulbs in a 6-inch pan or pot. Those varieties marked with asterisk (*) are best for forcing.

To assist in the selection of varieties that grow to the same height, we give directly after the description of each variety the average height in inches.

	Doz.	100	1,000
Alba Regalis. Creamy white, very delicate. 6.....	\$0.25	\$1.25	\$12.50
Artus. Dark scarlet, elegant flower, one of the most used red tulips for bedding on account of its keeping qualities. Recommended. 7.....	.20	1.20	9.00
Belle Alliance. Brilliant scarlet, large flower. 7.....	.30	1.75	16.00
Canary Bird. Pure deep golden yellow, an early variety, splendid for beds. 8.....	.30	1.75	16.00
Californian Gold. Canary yellow. 8.....	.40	2.00	17.50
*Chrysolora. Pure yellow, large. 8.....	.20	1.25	10.00
Cottage Boy. Light orange red with bronze edge, medium sized flower of very good form; a fine variety for bedding. 6.....	.30	2.00	16.00
Cottage Maid. Rose with white shade; a lovely variety, splendid for bedding. This is the most satisfactory light pink Tulip on account of its form and keeping qualities; this variety cannot be praised too highly. 6.....	.20	1.25	10.00
*Crimson Brilliant. Brilliant red with yellow base; on account of its dazzling color a fine Tulip for bedding. Large, bold flower of perfect form; also good for forcing. 8.....	.25	1.60	15.00
Crimson King. Small flower. 7.....	.25	1.25	10.00
Duc Van Tholl, Scarlet. For forcing, early. All Duc Van Tholl Tulips are only used for early forcing; flowers are however, very small. 7.....	.25	1.50	14.00
Duc Van Tholl, White. 6.....	.25	1.30	10.50
Duc Van Tholl, Yellow. 6.....	.30	1.75	16.00
Duc Van Tholl, Maximus, White. 7.....	.25	1.30	10.00
Duchesse de Parma. Deep orange maroon, with an irregular border of deep golden yellow, very large globular flowers, which makes it an exceptionally showy bedding Tulip, very similar to Keizerkroon, for which variety it is used in the cheaper trade. 9.....	.25	1.45	11.00
Goldfinch. Golden yellow. 7.....	.25	1.40	11.00
*Joost Van Vondel. Cherry red, white feathered, very large flower of exquisite shape; a very showy bedding Tulip. 8.....	.35	2.00	17.50
*Joost Van Vondel White (Lady Borrel). Snowy white, large, long flower of perfect shape; a superb variety for pots if not forced too early; it is a gem amongst the white Tulips, and we cannot recommend this sort too strongly. 8.....	.40	2.50	22.50
Keizerkroon. Bright red with broad yellow border, large flower on strong stem, fine for forcing and very effective for bedding; the most showy and popular bedding Tulip, for which purpose thousands and thousands are used. 9.....	.30	1.75	16.50
King of the Yellows. Early. 8.....	.20	1.15	9.00
La Riente. Bright rose. 10.....	.30	1.60	14.00
*Le Matelas. Bright rose, fine shaped flower, early; recommended for pots. 8.....	.40	2.75	24.00
L'Immaculee. Pure white, early; a good white Tulip for bedding. 6.....	.30	1.60	14.00

Group of Single Early Tulips.

SINGLE TULIPS—Continued.

	Doz.	100	1,000
Maas. Bright scarlet, large, broad flower; the foliage comes well up to the flower, and we can highly recommend this sort for bedding. 8.	\$0.45	\$3.00	\$20.00
*Pink Beauty. Vivid cherry rose, center of petals striped white, white center marked yellow. Enormous flower of a superb shape, carried on stiff, strong stem. This is the handsomest dark pink bedding Tulip and also fine late forcer. A new variety which cannot be praised too highly. 9.	.60	4.00	30.00
Pottebakker Scarlet. Large flower. 8.	.30	1.75	15.00
Pottebakker Yellow. 8.	.30	1.75	15.00
President Lincoln (Queen of the Violets). Light violet with white base; large flower, recommended for bedding. 8.	.40	2.50	24.00
*Prince of Austria. Fine orange red outside, brilliant scarlet inside, flowers are extra large and of great substance; excellent for forcing, sweet scented; it is an extra good Tulip for bedding and is used in large quantities. 9.	.30	1.75	15.00
*Proserpine. Rosy carmine with white center, marked slate-blue; an enormous large flower of a full globular shape, sweet scented. This is the best Tulip for early forcing and also an extremely handsome bedding Tulip. 8.	.40	3.00	25.00
*Queen of the Netherlands. Very soft, pale rose, flushed white, with white base; very large egg-shaped flower of a fine form; good forcer; one of the finest pale pink Tulips for either forcing or bedding. 15.	.30	2.00	17.50
Rembrandt. Scarlet, fine. 8.	.40	2.65	22.50
Rose Grisdelin. Pale rose, flushed and feathered creamy white; handsome shaped flower of moderate size; good for bedding. 8.	.20	1.10	8.00
*Rose Luisante. Beautiful deep rose; large flower of great substance. Splendid for medium or late forcing and also excellent for bedding. 7.	.30	2.15	18.50
Sir Thomas Lipton. Doz. 100 1,000			
Brilliant scarlet. 12.	\$0.50	\$3.00	\$26.50

Single Tulip, Proserpine.

Parrot or Dragon Tulips

These belong to the late or May-flowering Tulips, and have immense flowers in brilliant and varied colors. The petals are curiously fringed or cut, and the form of the flower, especially before it opens, resembles the neck of a parrot. They are very showy and should be grown in every flower garden.

	Doz.	100	1,000
Admiral of Constantinople. Red, fine.	\$0.25	\$1.50	\$12.50
Cramoisi Brilliant. True, the best and most attractive of all Parrot Tulips; beautiful crimson with black center.	.30	1.60	14.00
Lutea Major. Yellow	.25	1.50	12.50
Markgraaf. Red and yellow.	.30	1.80	16.50
SUPERFINE MIXED.	.20	1.20	9.00

Parrot or Dragon Tulips.

Single, May-flowering or Cottage Garden Tulips

These lovely late-flowering Tulips are very effective for all kinds of decorative work, and their value as cut flowers cannot be overestimated. They are all perfectly hardy, and are eminently fitted for border cultivation, for bedding, forcing and every purpose to which the early-flowering Tulip is put. They often grow from two to three feet high, and flower usually about Memorial Day, lasting fully two weeks in bloom. We have given this group considerable attention in recent years, and we can fully recommend the varieties listed below as the best of their kind.

	Doz.	100	1,000
Beauty of America. Pale yellow, rose border.	\$0.30	\$1.50	\$12.00
Bouton d'Or. Deep golden yellow, medium sized flower of great value for cutting, also good for late forcing; this variety is highly recommended30	1.75	14.00
Elegans. Brilliant crimson with yellow center35	2.25	19.00
Fulgens. Clear crimson with white center
Inglescombe Pink. Salmon pink.....	.40	2.50	21.00
Isabella (Shandon Bells, Blushing Bride). Beautiful rose pink, slightly white shaded; fine form; a most superb and distinct variety, also good for late forcing, and fine for bedding25	1.50	12.50
La Mervelle. Orange red.....	.25	1.65	12.00
Parisian Yellow. Bright yellow with darker center35	1.80	16.00
Picotee (Maiden's Blush). An elegant long shaped clear white flower, deep rose margined, the color suffusing the whole flower as it ages; medium size flower. A very graceful Tulip for borders; one of the most used May flowering Tulips...	.30	1.65	13.50
Retoflexa. Light yellow, very decorative35	2.20	19.50
The Fawn. Pale rosy fawn, changing to cream, flushed blush rose; large egg-shaped flower of exquisite beauty, on graceful stem. A gem amongst late Tulips owing to its dainty coloring, which is difficult to describe65	4.25

Wagner's Superb Darwin Tulips

The late-flowering Darwin Tulip has outclassed all its predecessors in type, style and beauty, and is at the present time the Queen of the Tulip family. It attains a height of two to three feet, with strong, heavy foliage, erect and robust stem, terminating in large and massive flowers. The colors of the Darwin embrace all the shades of white, pink, lilac, rose, scarlet, crimson and maroon, and most of the flowers show a particular satiny effect. Darwin Tulips are the finest among shrubby and perennials; they grow tall, bloom for a long time, and, if planted six to eight inches deep and left undisturbed, will bloom for many seasons. A great many of the varieties will force to good advantage and may be had in bloom during March.

Darwin Tulips are most valuable for permanent planting. With deep planting, 4 to 5 inches in heavy soil and 6 inches in light soil, they will continue to bloom for years. They also thrive in semi-tropical climates, like those of California and the Southern States, better than the early Tulips.

	Doz.	100	1,000		Doz.	100	1,000

Double Tulips

This class of Tulips is one of the most valuable. They are admirably adapted for pot culture and form a pleasing contrast to the Single Tulips in the greenhouse or conservatory. When planted in the open border they are very showy, and a succession of bloom may be had by a judicious selection from the following varieties. They form a dense mass of bloom when grown in beds, and the flowers remain in perfection of bloom longer than most of the single varieties.

Those marked with * are best for forcing.

	Doz.	100	1,000
Alba Maxima. Pure white. 7. \$0.25 \$1.35 \$10.00

RAINBOW MIXTURE. Double Tulips, all colors20	1.25	9.00

Double Tulip, Golden King.

Have Flowers in the House from Christmas Until Spring

With the great variety of Tulips, Hyacinths, and Narcissus suitable for forcing, and the following varieties, one may have beautiful flowers indoors all during the winter months.

Freesia

This is one of the most beautiful of all Cape Bulbs, possessing a peculiar grace of form, and its fragrance is most delightful, one pot of a dozen bulbs being sufficient to perfume a whole house. As cut flowers they are extremely valuable; the unexpanded blooms opening in water, fill the air with the most delicate perfume, and their endurance is really remarkable. They force very easily, and can be had in flower in January, and continue in succession until June. When potted these should not be placed in a dark place, like most other bulbs, but should be put directly in the light, and prefer a rather cool position.

Refracta Alba. Pure white; delightfully fragrant. Mammoth bulbs, 30 cts. per dozen; \$1.75 per 100; \$15.00 per 1,000. Selected bulbs, 20 cts. per dozen; \$1.25 per 100; \$10.00 per 1,000.

Improved Purity. The finest and purest white variety yet introduced; of strong growth and with larger flowers than the type. Mammoth bulbs, 50 cts. per dozen; \$3.00 per 100; \$25.00 per 1,000. Selected bulbs, 35 cts. per dozen; \$2.50 per 100; \$20.00 per 1,000.

Chinese Sacred Lily

This is the Narcissus Orientalis, and is the variety grown by Chinamen for decorating their temples or Joss-houses on their New Year's Day, which occurs in February. For the most part they are grown in water in fancy bowls, with just enough pebbles around them to keep them from toppling over. They can also be grown in pots in soil, sand or moss. They will flower by Christmas, and a succession of flowers can be had by making several plantings. The white and yellow flowers are borne in beautiful clusters, and are very highly scented. Select bulbs, \$1.50 per dozen; \$8.00 per 100.

Lily of the Valley

One of the most charming of spring-flowering plants, and can readily be flowered in the house. Has delicate sprays of drooping white bells which are delightfully fragrant.

American Grown Strong Clumps. For outdoor planting and for forcing. 25 cts. each; \$2.50 per dozen; \$20.00 per 100.

Wagner's Superb Narcissus or Daffodils

The Narcissus or Daffodil is becoming more popular every year. It is hardy in every way and thrives most anywhere. For naturalizing in woods and fields, nothing equals them. When once established they multiply rapidly and in a short time cover tremendous areas. They are equally desirable for pot culture for winter flowering. Three or four bulbs put into a 5- or 6-inch pan or pot will with their exquisite gold and silver blossoms brighten the dull months of the winter and early spring. Our Narcissus bulbs are all grown by the most reliable producers in Europe, and customers may depend upon getting strictly first-class goods. Those varieties marked with asterisk (*) are the leading varieties for forcing.

Giant Trumpet Narcissus LARGE FLOWERED

This type is the showiest of the genus, and also the most useful, growing easily either indoors or in the open ground. Every variety of this type offered is deserving of extensive planting, and you can set out any of them with full assurance that you will get a bountiful harvest of blossoms in the spring.

	Doz.	100	1,000
Ard Righ. Magnificent golden trumpet; early	\$0.45	\$2.75	\$25.00
Empress. Very large, reflexed yellow trumpet, broad white perianth of great substance; of strong and robust growth; one of the best; very fine for cutting and bedding. Forces easily. Large bulbs35	2.25	18.00

Poeticus Poetarum. Large, crimson crown; very striking30	1.50	15.00

Campernelle Jonquils.

Hyacinths

The Hyacinth is one of the most popular of the Fall bulbs and commands a place in every home and garden. There is nothing more attractive than a planting of Hyacinths, with their brilliant colors and delightful fragrance, together with their long keeping qualities and decorative appearance. They can be flowered in the house as early as January and a succession of bloom may be had until April by planting at suitable intervals and bringing to light and heat in rotation.

Wagner's Named Single Hyacinths

EXTRA-SELECTED
FIRST-SIZE

Not less than 25 bulbs of a variety can be ordered at 100 rate.

Our exceptionally choice First Size Hyacinths have always given excellent satisfaction, and our stock this season gives our customers an opportunity to procure the best that comes to this country. Our own special growers, who give their personal attention to this particular class of bulbs, assure us that there are none better. The varieties which we offer are all large-flowering bulbs, producing large, uniform trusses. Excellent for growing in pots or glasses. All marked thus (*) are unusually desirable.

Crocus

A universal favorite, being one of the earliest flowers seen in the Spring. They are neat, dwarf and compact in growth, and the blooms are of bright colors. If planted closely they make a very pretty display immediately after the snow goes off in the Spring. Should be largely planted in the grass on lawns. The effect is beautiful. For flowering in pots, baskets, etc.

Crocus, Large Flowered.

Miscellaneous Bulbs

The Spring-flowering bulbs listed below are the choicest of these plants, and are well worth the attention of the lover of flowers. Order them now, before it is too late. Delivery will be made at the proper time.

Colchicum, Autumnale Major

Blooms Without Soil or Water.

One of the most satisfactory novelties offered in bulbs. Grows about 8 inches high, bearing a large cluster of Crocus-like flowers and lasting for quite a length of time.

Th flowers in color are a delicate rosy-purple. The bulbs, placed in fern dishes and allowed to flower, are quite as ornamental for table decoration as ferneries.

After the bulbs have finished blooming, they may be planted out in the garden or in perennial border, where they will produce excellent results the following September.

Colchicum autumnale major, if used as a border, planted during August and September, will excel anything in the form of bulbs.

10c each, \$1.00 per dozen; \$7.50 per 100.

Crown Imperials

(Fritillaria Imperialis).

A stately hardy border plant of majestic appearance. The flowers are produced in whorls of bells. The bulb should be planted in October, 9 inches deep, and placed on its side with a handful of sand underneath it to avoid decay.

Crown Upon Crown. Bright red. 25 cts. each; \$2.50 per dozen.

Superfine Mixed. Including red, yellow and shades of orange. 15 cts. each; \$1.50 per dozen; \$9.00 per 100.

Snowdrops

(Galanthus).

Elwesii (Giant Snowdrop). An exceedingly large and beautiful single variety; flowers snow-white, with emerald-green tube. 15 cts. per doz., \$1.00 per 100; \$9.00 per 1,000.

Single. Pure white graceful bells; early flowering. 15 cts. per doz.; 85 cts. per 100; \$7.00 per 1,000.

Double. Flowers perfectly double, pure white. 25 cts. per doz.; \$1.50 per 100; \$12.00 per 1,000.

Ornithogalum

(Star of Bethlehem).

A very showy and distinct species, bearing racemes of white flowers with a black center, having a sweet, aromatic odor; grows 1 to 2 feet in height, and succeeds either outdoors or in pots. Excellent for forcing, and largely used by florists for this purpose. Of the easiest cultivation.

Umbellatum. Lovely and fine for naturalization. 20 cts. per doz.; \$1.00 per 100; \$6.00 per 1,000.

Puschkinia Libanotica

An ideal plant for naturalizing in the border, woodland, grass or flower beds. In appearance it resembles Scilla, but far more showy on account of the multitude of blossoms on a single spike. The color is a heavenly blue and exceedingly attractive; flowers remain in good condition for two weeks. \$1.10 per 100; \$9.00 per 1,000.

Ixias

The Ixias are so beautiful and rich in tints that no lover of flowers should be without them. They are equally adapted for pots or for the open ground, exceedingly free-flowering, and invaluable for cutting.

Double Rose (Wonder). Beautiful pink. 65 cts. per doz.; \$4.00 per 100.

Mixed. Very fine mixture. 15 cts. per dozen; 60 cts. per 100; \$5.00 per 1,000.

Scilla

The effect in early spring of the intensely rich blue, early-flowering Scilla, contrasting with the snow white of the Snowdrop and the varied hues of the Crocus, is very striking; most valuable for permanent edging, or planted in bunches of a hundred or more.

Campanula Alba. White. 20 cts. per doz.; \$1.00 per 100; \$7.00 per 1,000.

Sibirica. Finest sky blue. One of the loveliest Spring flowers; it has a color almost as deep as the sky itself. 18 cts. per doz.; \$1.00 per 100; \$9.00 per 1,000.

Lilium (See also Rear Outside Cover)

Single bulbs of Lilies mailed free at prices given; rates on larger quantities do not include delivery.

We confine our list of Lilies to such as are of easy culture, and give the best results with the least care. It is in the hardy border, or among shrubbery, that Lilies do best, as they get the benefit of the shade of the surrounding plants which is so necessary for their welfare. In planting, cover the bulbs at least three times their own depth, and when hard frost sets in, 4 to 6 inches of leaves or litter should be placed over them; this should be removed in the spring when danger from hard frost is past.

Special Notice.—Lily bulbs will be shipped as they mature. As a rule all in our list can be supplied in September except Auratum and Speciosums; these in late October and November.

Auratum (Golden-banded Lily). Undoubtedly one of the finest. Its large, graceful, fragrant flowers are composed of six petals of a delicate ivory-white color, thickly studded with chocolate-crimson spots, and striped through the center a golden-yellow; 3 to 5 feet; July-September.

Doz.	100
8 to 9-inch bulbs	\$1.50 \$10.00
9 to 11-inch bulbs	2.00 15.00
11 to 13-inch bulbs	3.00 20.00

Candidum. (See Outside Rear Cover).

Elegans (Umbellatum). This class includes some of the most beautiful Lilies; flowers erect, borne in clusters; colors of the richest hues of yellow and red; fine for planting in masses. Mixed varieties, 1 to 2 feet; July. \$1.00 per dozen; \$7.00 per 100.

Elegans Incomparable. Intense deep red; one of the richest of this easily grown group; 2 feet; July. \$1.50 per dozen; \$10.00 per 100.

Excelsum. This remarkable Lily produces from 8 to 12 nodding, rich apricot-hued blooms; very sweet scented; 4 to 6 feet; July. \$5.00 per dozen; \$35.00 per 100.

Longiflorum Giganteum. A splendid type, later flowering than the others but of strong, free, healthy growth, and while it can be forced into bloom for Easter it is just the thing for Decoration Day and later flowering; quite hardy and good for outdoors.

Doz.	100
Large bulbs, 7 to 9 inches	\$1.25 \$ 9.00
Extra large bulbs, 9 to 10 inches	2.00 15.00

Speciosum Album. The Speciosum are the most important of all the Japanese Lilies, always satisfactory; the variety offered here has large white flowers of great substance, with a greenish band running through the center of each petal.

Doz.	100
8 to 9-inch bulbs	\$2.00 \$15.00
9 to 11-inch bulbs	3.00 20.00

Lilium Speciosum Rubrum.

Speciosum Rubrum. White, heavily shaded and spotted with rich crimson spots.

Doz.	100
------	-----

8 to 9-inch bulbs. \$1.50 \$10.00

9 to 11-inch bulbs. 2.00 14.00

Superbum. A beautiful native variety, bright reddish-orange spotted; 3 to 6 feet; August. 15 cts. each; \$1.50 per dozen; \$10.00 per 100.

Tenuifolium (Coral Lily). Bears in profusion medium-sized flowers of perfect form and of a dazzling orange-scarlet; 1 to 2 feet; May. \$1.50 per dozen; \$11.00 per 100.

Tigrinum (Tiger Lily). Orange, spotted black; 2 to 5 feet; summer. 75 cts. per dozen; \$4.00 per 100; \$30.00 per 1,000.

T. Splendens (Improved Tiger Lily). Black polished stem, very large pyramid of flowers, orange-red, spotted with black. \$1.00 per dozen; \$4.50 per 100; \$35.00 per 1,000.

T. Flore Plena (Double Tiger Lily). Orange-red spotted with black; double, showy flowers. \$1.00 per dozen; \$5.00 per 100; \$35.00 per 1,000.

Spanish Iris - Iris Hispanica

These have appropriately been called "the Orchids of the Hardy Flower Garden," some of the choicer orchids being their only rivals, and even they can hardly be said to exceed them in richness, variety and beauty. They are of the most simple culture, succeeding in almost any soil or position. The bulbs should be planted 2 or 3 inches deep and 6 inches apart. In England they are grown by the millions for cut flowers. They have a great combination and variety of color in the same flower and are very diverse and of great richness, comprising all shades of blue, yellow and bronze, as well as pure white, and are highly useful for decoration and cutting. We advise all to try a few hundred, and in large gardens they should be planted by the thousands. The stock we offer is exceptionally fine. These Irises can be bloomed in the greenhouse in the spring, but are not suitable for growing in the house.

English Iris - Iris Anglica

Unlike most sorts, these come in bulb form, just like tulips, and should be planted and cared for in the same way; and while all of the varieties offered have claims on the attention of amateurs, the Spanish sorts are particularly desirable, both for garden decoration and for cutting, and it is doubtful if any other bulbous plants give more generous returns.

Iris Germanica—German Iris

The beauty of the Iris is proverbial; the very name refers us to the rainbow and the eye, two of nature's most beautiful objects. Irises flourish and flower exceedingly in any ordinary soil; however, they delight in well-rotted manure and deep, rich soil. Many are very thirsty subjects and adorn the margins of ponds and streams. They are also indispensable for shrubby borders, etc., and are very effective. They are invaluable in the herbaceous borders, both on account of their hardiness and easy culture, and for the lavish wealth of blossoms that crown their numerous stems. This group includes all the broad-leaved Iris. For the wild garden, shrubby borders, margins of water, rock-work, etc., they are admirably adapted; in fact, hardly any place can be found in which some of this section will not thrive. They are the most resplendent flowers for Decoration Day, fully equal if not superior to anything else. Their beauty and fragrance have won a place in many gardens and will be planted more extensively in the future. Height, 15 to 24 inches.

SPECIAL NOTE.—Those varieties underlined have been grown in immense quantities that we may offer them to all who desire to make heavy plantings of Iris. They are very desirable for cutting.

Atropurpurea Deep purple, large and fine. \$50 per 1,000; for dozen and 100 price, see below.

AVELREA. (M). Upright petals light blue, falls brilliant purple. 25 cents; \$2.50 per dozen. Heavy clumps, 50 cents.

Aurca. (M). Solid chrome yellow, no markings.

Bridesmaid. (M). A soft lavender; falls penciled carmine.

Candicans. Light lavender; falls reddish purple. 25 cts.; \$2.50 per dozen. Heavy clumps, 50 cents.

Calypso. Pale blue, veined white and pale lilac.

Compte de St. Clair. Deep violet. A fine variety.

Celeste. (M). Pure celestial blue, changing to porcelain.

Donna Marie. (M). Center petals pearly white, outside petals shaded lilac. 25 cents; \$2.50 per dozen. Heavy clumps, 50 cents.

Fragrans. Stands white edged blue, falls white blue veined. 25 cts.; \$2.50 per doz. Heavy clumps, 50 cts.

Flavescens. Light primrose yellow, very large, fine flower and remarkably free blooming.

Gladstone. Erect petals violet, drooping petals violet and white striped.

Gracchus. Erect petals lemon; drooping petals pale yellow reticulated purple; dwarf, compact growing; remarkably fine flowering.

Her Majesty. (T). Pinkish violet and deep reddish violet with dark veinings. 35 cts. each. Heavy clumps, 75 cents.

Honorabilis Stands Golden yellow, falls crimson brown. \$45.00 per 1,000; for dozen and 100 price, see below.

Innocenza. Stands pure white, falls tinted violet.

John DeWitt. (M). Stands bluish violet, falls deep violet purple. 25 cents; \$2.50 per dozen. Heavy clumps, 50 cents.

L'Innocence. White edged blue. 25 cents; \$2.50 per dozen. Heavy clumps, 50 cents.

Mad. Chereau Pure white, edges penciled with lavender. \$50.00 per 1,000; for dozen and 100 price, see below.

Mme. Almira. A fine new sort. Handsome silvery white with blue sheen.

Mrs. Darwin. (M). Very fine large pearly white, free flowering. 25 cents; \$2.50 per dozen. Heavy clumps, 50 cents.

Neclecta (T). Upright, fine, deep lavender; falls purple; large flowers, very fine. 25 cents; \$2.50 per dozen; \$15.00 per 100. Heavy clumps, 50 cents; \$5.00 per dozen.

Pearl. Stands light lavender, falls deep lavender. 25 cents; \$2.50 per dozen. Heavy clumps, 50 cents.

Queen of the Gypsies. Stands light brown, falls reddish purple and gold.

Souvenir. (M). Uprights brilliant yellow, falls freely veined net work of yellow, buff and maroon. 25 cts.; \$2.50 per dozen. Heavy clumps, 50 cents.

Spectabilis Stands pale lavender, falls blue and old gold. \$40.00 per 1,000; for dozen and 100 price, see below.

Virgils A light brownish blue, lower petals purple and gold. \$40.00 per 1,000; for dozen and 100 price, see below.

Walneri Lilac center, lower petals purple. \$45.00 per 1,000; for doz. and 100 price, see below.

William III. Stands light blue with darker veins, falls buff yellow, light blue veins.

Price Of all above varieties, except where noted, field grown, 15c each, \$1.50 per doz., sent prepaid. Large field grown, 25 cents; \$2.50 per dozen; \$15.00 per 100. Extra heavy clumps, 50 cents, \$5.00 per dozen; \$35.00 per 100.

Order Now--Plant in August or September

While the Iris may be planted late in fall and also in spring, best results are obtained from early fall planting.

Note the size of the individual blossoms of the German Iris, and the quantity of flowers on a single stem. The single specimen clumps are of great size and present a most beautiful appearance.

Miscellaneous Irises

All varieties listed on this page can be planted as early as August except "Siberian" and "Japanese." Plant them in September or October.

There is a peculiar charm about the various Iris that appeals irresistably to those whose taste for the refined and delicately beautiful leads them to seek a close acquaintance with it. The rare beauty of its soft coloring, and its frail, orchid-like formation, is likely to pass unnoticed by the careless observer, but to him who stops to gaze into the depths of the Iris flower and comes under its magic spell, a new world is opened, for an Iris garden is a floral world by itself.

Pallida Albert Victor. (T). Very large, late, deep, lavender, extra fine. 25 cents each; \$2.50 per dozen. Heavy clumps, 50 cents.

Pallida Dalmatica (T). One of the finest of the Germanica type, of strong, vigorous habit, growing on good soil, 4 feet high with exceptionally large, fragrant flowers; light lavender, falls lavender shaded blue; exquisite in every way; fine for massing. 25 cents each; \$2.50 per dozen, prepaid; heavy clumps, 50 cents each; \$5.00 per dozen.

Iris Pallida Queen of May. Erect petals orange, falls rosy lilac, veined yellow. 25 cents; \$2.50 per dozen. Large clumps, 50 cents; \$5.00 per dozen.

Iris Pallida Speciosa. Stands dark lavender, falls light purple. 25 cents; \$2.50 per dozen.

Harlequin (M). An orchid-like flower, stands pearly white with purple spots, falls heavily striped with deep purple. 50 cents each; \$5.00 per dozen. Heavy clumps, 75 cents.

Pumila Iris This variety is of the earliest to bloom and the dwarfest of all the Iris. Very fine for borders and for rock garden or general planting. Color is rich, royal purple. We offer 12 good, healthy roots for \$1.00; 100 roots, \$6.00, prepaid. Large size roots, \$2.50 per dozen; \$15.00 per 100. Extra heavy clumps, as long as they last, 40 cents; \$4.00 per doz.

Iris Florentina The flowers are of large size and very fragrant, the fall petals often measuring three and one-half inches long. The color is pure white tinged with blue, and of the earliest to come into bloom. This variety is already a favorite in many of our old gardens, and when its beauty and merit become known, every garden will contain quantities of it. As long as they last, we offer strong roots at \$1.50 per dozen; \$10.00 per 100, prepaid. Large roots, 25 cents each; \$2.50 per doz.; \$15.00 per 100. Extra heavy clumps, 50 cts.; \$5.00 per doz.

Iris Orientalis "Snow Queen." Large, ivory-white flowers on long stems. Nice, thrifty plants, 20 cents each; \$2.00 per dozen, prepaid. Extra heavy clumps, 50 cents each.

Pseudacorus (Water Flag). A very desirable and satisfactory variety for planting in marshes and water courses. Blossoms in May and June, and the color of the flower is yellow, which is a very rare color among the Irises. Our extraordinary offer: \$1.00 per dozen; \$7.00 per 100, prepaid. Large size, 20 cents, \$2.00 per dozen. Extra heavy clumps, 40 cents; \$4.00 per dozen.

Siberian Iris The most elegant and delicate of the Iris, foliage narrow, grass-like, with flower stems long and blossoms a clear blue. A very free-flowering variety, and one of the best for cutting. We offer 12 good healthy roots for 75 cents; 100 roots, \$5.00, prepaid. We also have some extra heavy clumps which we offer, as long as they last, 6 for \$1.00; 12 for \$1.75; 100 for \$10.00.

Special Offer One each of the above miscellaneous Iris, \$1.50 prepaid. One each of above in extra heavy clumps, \$3.50 prepaid.

Iris Kaempferi - Japanese Iris

With a great blaze of splendor the Japanese Iris brings the Iris season to a close. The last to bloom, it is a glorious climax to the grand Iris procession that began early with dwarf forms of April and May, following each other with constantly increasing boldness of form and color until June ushered in the great Germanica family, including all the miscellaneous varieties, with its massive sheets of color, followed in quick succession by tall Iris Kaempferi, crowning glory of all, with its great bloom measuring nearly a foot in diameter, rising on tall stems to a height of five feet. Seeing them for the first

No. 17. Single lavender. Fine large flower. 30 cents each; \$3.00 per dozen. Heavy clumps, 50 cents.

No. 19. A grand double variety. White center with pink edge. 30 cents each; \$3.00 per dozen.

No. 21. Double, delicate light blue flowers. A grand variety. 40 cents each; \$4.00 per dozen.

Price All above varieties of Japanese Iris, except where noted, 15 cents; \$1.50 per dozen; \$10.00 per 100, prepaid. Large size, 25 cents; \$2.50 per dozen; \$15.00 per 100. Extra heavy clumps, 50 cents; \$5.00 per dozen; \$35.00 per 100.

The Siberian Iris is Unusually Fine for Cutting, Owing to its Long Stems.

time, one cannot withhold an exclamation of surprise and wonder, and having once seen them can never forget their striking beauty. The varieties we offer are all distinct kinds, true to descriptions given. We have numbered our collections so that customers may order by number.

No. 2. Flowers double white. Exceedingly beautiful.

No. 4. Beautiful single lavender, striped with deep lilac. Earliest.

No. 5. Large single purple, with white wax-like center.

No. 6. Immense double purple, marked with white and lavender, wax-like center.

No. 7. A very early single variety. White blotched with carmine.

No. 8. A very fine double of the deepest purple.

No. 11. Single pink striped with white. Of fine form and very attractive. 35 cents; \$3.50 per dozen.

No. 15. Double white flowers, suffused with lavender. 25 cents each; \$2.50 per dozen. Heavy clumps, 50 cents.

Wagner Park Peonies

Plant them in the Fall. August and September are the best months. They may be planted later, however.

Wagner Park Herbaceous Peonies are the most beautiful of all the Hardy Perennial plants, and should be in every garden, large or small, in bed, borders, shrubberies or drives; in park, grass or woodland. They should, therefore, be planted near at hand for close enjoyment of their beauty, as well as in masses for distant color effect; in lines straight or curving on the margin of shrubberies, and in groups between shrubs; in large or small beds in the midst of turf; in borders at the foot of walls; and in mixed borders at constant intervals; and the rougher parts of the garden. All these situations they adorn. There is no other plant that will make such a magnificent display of color, or gives so much satisfaction in return for the trouble involved in its cultivation.

Whether in the old kinds or in Wagner's lovely new varieties, they will thrive in practically any position, and there is hardly one which will not flourish to perfection. They are amenable to the simplest treatment in any soil and are as hardy as the dock by the wayside. They need not the slightest protection.

The flowers are produced in great profusion in an almost endless variety of lovely tints, and in many cases with the fragrance of the tea rose. They are of extreme beauty for decoration, and in large gardens a considerable space should be especially devoted to Wagner's Peonies for cut flowers for the house; in vases and bowls no flower is richer or more handsome, and for large functions the blossoms are invaluable.

Our First Prize Varieties

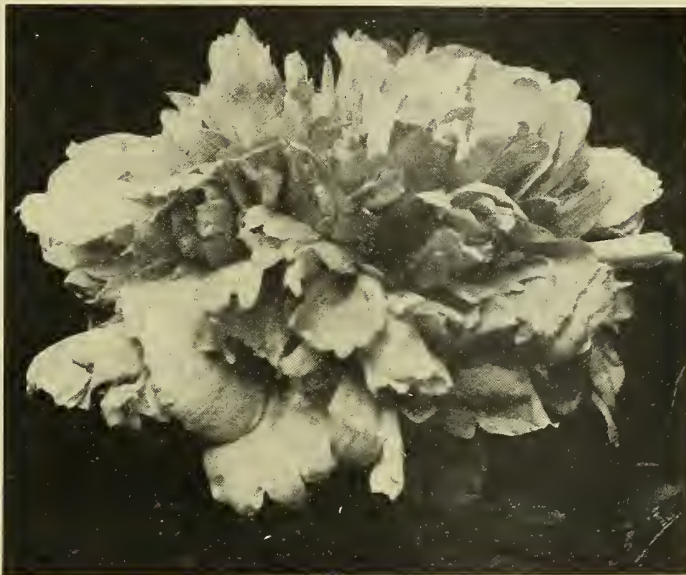

These three varieties we consider the best for general planting.

First Prize Pink. A beautiful pink, the tips shading to a silver shade; almost identical to a La France Rose. The blossoms are extra large with long stems and well adapted for cutting. 30 cts. each; \$3.00 per doz.

First Prize Red. In color this variety resembles the American Beauty Rose, but surpasses it on account of its larger size and profusion of blossoms. 35 cents each; \$3.50 per dozen.

First Prize White. A large, pure white with a very few pink markings in the center. Fine for general cultivation. 50 cents each; \$5.00 per dozen.

Price One each of the three First Prize Varieties, nice large roots, \$1.00, prepaid; in larger size roots, \$2.00; undivided clumps, \$5.00.

First Prize Pink Peony.

Other Choice Named Peonies

We do not aim to list all varieties, but only those of real merit and such that have proven satisfactory. Our complete list comprises over two hundred varieties.

Agida. Dark, rich red. 50 cents; \$5.00 per dozen; large, heavy clumps, \$1.00 each.

Achilles. Light flesh pink. 50 cents.

Berlioz. Color currant red. 75 cents each.

Compte de Manteuil. Deep rose petals tipped with white. 35 cents; \$3.50 per dozen; large, heavy clumps, 75 cents.

Clarissa Rose pink. 20 cents; \$2.00 per dozen; \$10.00 per 100. Large heavy clumps, 60 cents; \$5.00 per dozen.

Compte de Paris Rose color with salmon center. 20 cents; \$2.00 per dozen. Large, heavy clumps, 60 cents.

Dorton's Coros. Beautiful, light pink. 20 cents; \$2.00 per dozen. Large, heavy clumps, 50 cents.

Duc de Gazes. Outer petals deep rose, center silvery rose. 35 cents; \$3.50 per dozen. Heavy clumps, 75 cents.

Duke of Wellington. Ivory white, creamy center. 35 cents; \$3.50 per dozen.

Dorchester. Delicate salmon flesh. \$1.00 each.

Festiva Maxima. Largest white variety. 75 cents; \$7.50 per dozen.

Festiva Alba. Pure white, fine form. 50 cents; \$5.00 per dozen.

Fragrans Violet rose. 15 cents; \$1.50 per dozen; \$8.00 per 100. Large, heavy clumps, 50 cents; \$5.00 per dozen.

Charlemagne Lilac white, slight blush center. One of the best. \$1.00 each.

Faust Salmon pink, center grayish white. Very fine. \$1.00 each.

Formosa Rosea Guard petals light rose, petaloids of silvery rose. \$1.00 each.

Grandiflora Superba Dark pink, center light rose. Very showy. \$1 each.

Humei Rosea Enormous double flowers. 15 cents; \$1.50 per dozen; \$8.00 per 100. Heavy clumps, 50 cents.

Hercartian Guard petals deep rose, with incurved petaloids of silvery rose. \$1.00 each.

L'Eblouissante. Rich, dark crimson. 75 cents.

First Prize Red Peony.

WAGNER PARK PEONIES—Continued.

- L'Esperence** Rose pink, early, fragrant. 50 cents; \$5.00 per dozen. Heavy clumps, \$1.
Lady Elbrower. Light pink. 35 cents; \$3.50 per dozen. Large, heavy clumps, 75 cents.
Lady Bramwell. Silvery rose. 50 cents; \$5.00 per dozen. Heavy clumps, \$1.00.
Md. Breson. Flesh color, whitish yellow center. 35 cents; \$3.50 per dozen. Large, heavy clumps, 75 cts.
Model of Perfection. Fragrant, clear flesh pink. 75 cts.
Marie Lemoine Delicate flesh. 50 cents; \$3.00 per dozen. Large, heavy clumps, \$1.00.
Odorata Guard petals deep rose, rosette center of lighter shade. \$1.00 each.
Prince of Wales Bright pink. 35 cents; \$3.50 per dozen.
Princess Beatrice. Large, clear pink. 50 cents.
Purpurea Superba. Large purplish crimson. 50 cents.
Rubens Dark crimson red, tinted velvet, yellow stamens. \$1.50 each.
Rubra Superba. Rich brilliant crimson. \$1.00.

Rosea Elegans. Delicate rose. 35 cents; \$3.50 per dozen. Heavy clumps, 75 cents.

Reine des Francois Guard petals fleshy pink, petaloides creamy white, with lavender tuft. \$1.50 each.

Whitley (Queen Victoria). Pure white. 35 cents; \$3.50 per dozen.

Japanese Peonies

Miles Standish. Shell pink, chrysanthemum center. 40 cents; \$4.00 per dozen. Heavy clumps, 90 cents.

Queen Esther. Blush white, chrysanthemum center. 50 cents; \$5.00 per dozen. Large, heavy clumps, \$1.00.

Single Peonies

Tenuifolia. Rich crimson. Finely cut foliage. 50 cents; \$5.00 per dozen.

Single Red. Very showy. 50 cents; \$5.00 per dozen.

Single Rose. 50 cents; \$5.00 per dozen.

Day Lilies—Hemerocallis

Plant them now or any time—they always give satisfaction.

One of the most beautiful and popular of our garden perennials. The foliage is narrow, grass-like, and remarkably free from insect enemies. These plants are so hardy that they need no protection over winter, even in the severest climates. They possess a constitution equal to that of Golden Glow. The flowers resemble the famous Easter Lilies. The blossoms are excellent for cutting, last a long while and the most backward buds will open when in water.

The culture of these plants is very simple as they thrive in almost any kind of soil, but the most luxuriant growth and profusion of blossoms may be had when planted in a shady, moist location. Our stock of Hemerocallis is field grown and can be depended upon to be the truest grown. Certainly no perennial is more worthy of cultivation and none more satisfactory. For massing or planting in the hardy border with other varieties of plants or shrubs, it is unrivaled. Abbreviations: (M), medium height. (D), Dwarf.

HEMEROCALLIS Apricot (D). A splendid new hybrid variety of good growth. Flowers are a rich apricot shade, a color seldom seen among plants.

Distichia fl. pl. (M). Broad foliage of good height. A late blooming variety. Flowers are double, orange, yellow shaded copper.

Dumortieri (Japanese Day Lily). (D). A dwarf growing variety and of the earliest to bloom. Flowers a rich candium yellow, reverse of petals bronze orange.

Flava (Lemon Lily). (D). Gracefully arching leaves and fragrant, clear yellow flowers on long stems.

Fulva (European Day Lily). (M). A variety of the easiest culture. Flowers bronzy orange color. 75 cents per doz.; \$5.00 per 100, prepaid; large plants, \$1.50 per doz.; \$10.00 per 100. Extra heavy clumps, 25 cents; \$2.50 per doz.

Gold Dust (D). Flowers bright Indian yellow, buds and reverse of petals bronzy-gold. 20 cents; \$2.00 per dozen; \$12.50 per 100; larger plants, 50 cents; \$5.00 per dozen.

Kwamso (M). This variety is equal to the Thunbergii in hardiness and luxuriant growth. The foliage is slightly broader and of a good color. Blossoms are borne on long, stiff stems and are of orange-yellow color. Its flowering period is during June and July. An excellent variety in every way.

Luteola (D). A magnificent new hybrid combining the floriferous characteristics of Thunbergii. The long-tubed, half-reflexed, bright golden yellow flowers are borne on tall branching stems, each flower very large and are produced continuously throughout the summer.

Middendorffii (M). This variety is a native of Siberia and Japan. The blossoms are golden yellow and are fragrant.

Sweet-scented Day Lily (*Hemerocallis Thunbergii*)

This beautiful variety possesses all the desirable features of the Hemerocallis and equal to any of the varieties in hardiness and vigorous growth. The blossoms are pure yellow and sweetly scented, and produced on long stems. It blooms so freely it would be practical to class it among the ever-blooming plants, for the handsome blossoms may be seen from early June to late summer. The finest and best of all.

Price Of all varieties, except where noted, 15 cents each, \$1.50 per dozen, sent prepaid. Large size plants, 25 cents; \$2.50 per dozen; \$15.00 per 100. Extra heavy clumps, 50 cents, \$5.00 per dozen; \$35.00 per 100.

Planting of Hemerocallis Thunbergii.

The Famous Wagner Pot-Grown Perennial Flowers

These are growing plants that will produce results this season. Plant them now and obtain immediate effects

Shasta Daisy.

When plants are so handled satisfactory results are practically assured.

If you have any vacant spaces in your hardy borders or a new place to plant, you may order from this list and you will receive plants that have been especially grown for late planting. Note illustrations showing mass of fibrous roots and compact ball of soil, which assures successful transplanting.

Why wait until fall when it is possible to get such stock as will transplant now, and being hardy, may remain permanently, increasing from year to year. We list only those varieties that will produce immediate effects and give entire satisfaction.

Abbreviation: (D) Indicates height 6 to 15 inches; plant from 6 to 15 inches apart. (M) Indicates height 15 to 36 inches; plant from 12 to 30 inches apart. (T) Indicates height 36 to 60 inches; plant from 30 to 48 inches apart.

Prices All varieties of Perennials listed on this and following page, except where noted, 20 cts. each, \$2.00 per doz. Extra heavy plants of those varieties marked with "X," 35 cts. each, \$3.50 per doz.

Gaillardia.

Note the supply of roots and how vigorous the growth—Sure to please.

XAchillea The Pearl. (See cut). (M). June to October. This is one of the most beautiful and useful perennials we grow. It is of a low spreading character with pure white flowers, perfectly double, and produced in large sprays. Fine for cutting.

XAnemone (See cut). (Japanese Wind Flower). One of the most desirable of all hardy plants on account of their continuation of bloom from early August until cut down by frost. Excellent for cutting, lasting in good condition for many days.

Japonica Alba. Large white, very fine.

Queen Charlotte. Fine semi-double flowers. Color, La France pink, a color that is rare among hardy plants.

Whirlwind. Semi-double, pure white; very fine.

XAster Tartarica We consider this an exceptionally fine Aster for the hardy border, owing to its lateness to bloom. It has beautiful green foliage all summer, and in fall the plants are a mass of bright purple flowers produced on long stems, and are fine for cutting.

Chrysanthemums (See cut). (Hardy). (M). Many are the lovely flowers that give a succession of beauty throughout the summer days, but when fall comes we have still the best in reserve, notably old-fashioned and really hardy Chrysanthemums. The flowers of these, which are in the greatest profusion, will endure the early frost and early snow storms, and delight us with a show of blooms on such sunny days as we may be favored with in late fall. The hardy Chrysanthemum is especially recommended to inexperienced cultivators, for no class of flowers is easier to manage. Their blooming period is from September to November. Height 18 to 36 inches.

Globe d'Or. Golden yellow, a large, handsome, full flower.

Eagle De Or. Medium size, yellow flower, fully double and of fine form.

Rhoda. White, shaded pink; fine, large, fully double flower.

Nelly Bly. Light lilac pink, very fine; large semi-double flower.

Goldfinch. Heavy clusters of bloom, color gold and bronze.

CHRYSANTHEMUMS—Continued.

Orange Beauty. Semi-double, orange yellow, center of petals shading to a deep orange; medium size flower.

Climax. Large flower, light pink shaded to rose; very early and free flowering.

WAGNER'S SEVEN BEAUTIFUL HARDY CHRYSANTHEMUMS

These seven varieties are novelties and are distinct, no two colors alike, each a decided gem and will give perfect satisfaction. They are all beautiful and an excellent addition to the list of Hardy Chrysanthemums.

President. Rich, reddish violet. Medium size flower, but very free to bloom.

Model of Perfection. Fine, pure white of large size, free bloomer.

Peachblow. Semi-double, yellow center, petals shaded from almost white to deep pink.

Little Beauty. Dwarf grower and usually comes into flower in August and continues until late fall; color white, suffused with rose pink; should be in every collection.

Hiawatha. Clusters of small but very beautiful bronzy-red flowers, and very free blooming.

Matchless. Yellow striped with pink, large semi-double flowers, medium size flower but free bloomer.

Superba. Large double full flower; color, deep rose pink; a beautiful variety and very free flowering.

PRICE of the the seven above varieties, 25 cents each; \$2.50 per dozen. One each of the seven above varieties, \$1.25.

GRANDMOTHER'S HARDY GARDEN MUMS

These are the old-fashioned and reliable Chrysanthemums that were so highly prized in the garden corners and alongside the house of "grandmother's home."

We offer the **White, Pink, Red and Yellow**, separate colors. 20 cents each, \$2.00 per dozen. Large plants, 25 cents, \$2.50 per dozen; extra heavy, 50 cents, \$5.00 per dozen.

Anemone.

Achillea, The Pearl.

Hardy Chrysanthemums.

Coreopsis.

Shasta Daisies.

Delphinium.

X Coreopsis (See cut) *Lanceolata Grandiflora*. (D). June, July. One of the most popular hardy plants. Flowers are rich golden yellow, and invaluable for cutting.

X Wagner's Shasta Daisies (See cut). These are universally popular for outdoor planting, and considering their many good qualities, should be planted extensively. The flowers are of the purest, glistening white, of enormous size, and produced on long, stiff, wiry stems; excellent for cutting.

X Delphiniums (Perennial Larkspurs). As permanent subjects in the hardy flower garden, we have few plants more worthy of special attention than the Delphinium (Larkspurs). Indeed, they have many points of excellence, any one of which alone should entitle them to popularity. But to appreciate their beauty one should see them growing, for it is almost impossible to convey anything like an adequate idea of their worth by mere description. The Delphinium of today is one of the most beautiful of all flowers.

X English. (See cut). (T). This collection includes practically all shades of blue. We offer mixed colors.

X Belladonna. (M). The freest and most continuous blooming of all, never being out of flower from the end of June until cut down by hard frost. The clear turquoise blue of its flowers is not equalled for delicacy and beauty by any other flower.

Formosum. (M). June to Aug. The flowers are intense, deep blue, perhaps the most brilliant blue to be found in flowers.

X Gaillardia *Grandiflora*. (See cut). (D). June to Oct. One of the showiest and most effective hardy plants. The flowers are of a gorgeous coloring and very large, from 2 to 3 inches in diameter, and on long stems. The center is a dark red-brown, while the petals are curiously marked with rings of brilliant scarlet crimson, orange and vermillion, and often a combination of all these colors in one flower. Excellent for cutting.

Helianthus *Maximilliana*. (T). September to November. A most graceful single flowered variety; the flowers are produced in long, graceful sprays, which make it invaluable for cutting purposes. The foliage is beautiful, and remains green until heavy frosts.

Sedum.

X Stokesia *Cyanea*. The plants grow from eighteen to twenty-four inches high and bloom from July until late into October. Its beautiful, Centaurea-like flowers of a delicate lavender blue color, are four or five inches in diameter, and are highly prized for cutting.

X Sedum Spectabilis (See cut). A very desirable hardy perennial thriving in any good soil and produces most pleasing effects when used as an edging to a bed of other plants. In formal work it is indispensable, as it grows compact and bushy. Foliage is a beautiful light green and quite broad. Flowers are rose colored and cover the entire top of the plant when in full bloom.

A "GRANDMOTHER'S GARDEN" Collection of Hardy Plants—20 choice and thrifty plants, \$2.00. The 20 plants in extra large size, \$5.00.

Hardy Garden Pinks *Lord Lyon*. These are among the old favorites, easy to grow, as the years go by. Every one who loves a flower, loves the old-fashioned Pink. Instead of small flowers we now have blooms that in size and color are nearly equal to the fancy greenhouse Carnations. For edging a bed of hardy plants they are without a rival. Fine, showy, bright pink flowers on long, stiff stems.

Hollyhock *Wagner's Double Pink Beauty*. This variety is indeed a beauty and distinct from all other Hollyhocks. The flowers are borne on tall, upright stalks and are of a most pleasing shade of pink, and perfectly double.

X Pyrethrum Hybridum (D). Too much cannot be said in favor of this grand hardy perennial. No class of plants gives a wider range of colors, while the form and substance of the flowers is all that could be wished. Ranges in color from pure white and the various shades of pink and red to deep purple.

X Physostegia Virginica An unique and attractive American plant that stands apart from all other hardy plants. For massing or planting with appropriate varieties in the hardy border or with shrubs it is unrivaled. Flowers are produced in large, graceful spikes and are a bright, soft pink.

X Rudbeckia Purpurea An entirely distinct variety from all others, and thrives in any ordinary soil. The foliage being dense and of good color makes them one of the choicest hardy perennials. The flowers are of a peculiar formation as well as color, which is reddish purple with large, cone-shaped center in brown.

X Golden Glow. (T). Aug., Sept. This is the most popular hardy plant; a very robust and strong grower. It makes a gorgeous display either planted in clumps or mixed with shrubbery or other hardy plants.

X Sub-Tomentosa. A pyramidal, densely-branched plant, two and one-half feet high, which is completely enveloped throughout the summer in a mass of brilliant lemon-yellow flowers with dark purple centers.

Gaillardia.

Perennial Phlox

No class of hardy plants are more desirable than the perennial Phloxes. It is no exaggeration to say they are the most popular plant grown. For producing a grand show of flowers they have no equal. They will thrive in any position and can be used to good advantage in the hardy border, in large groups on the lawn or planted in the foreground of shrubbery. They furnish a brightness after the shrubs are finished blooming, and do much to make the flower garden a joy throughout the whole season.

The perfect hardiness is another strong feature in its favor as well as its long period of bloom.

We offer here a good variety of color, and these plants well we know give entire satisfaction, and believe that under ordinary conditions all will blossom this season.

- X **Amethyst.** (M). (Our own introduction). Violet rose; a little deeper towards the center. Late flowering, which makes it a very valuable variety.
- X **Bridesmaid.** (M). Pure white, with large crimson center; very free flowering.
- X **Coquelicot.** (M). Fine flowering scarlet with deep crimson eye.
- X **Isabell Dupuy.** (M). Rose, red center. One of the best pinks, very bright, excellent for backgrounds.
- X **Jean Llaud.** (M). Extra large flowers, forming large, compact flower heads. Color, rosy pink with bright crimson star in center. Very handsome.
- X **President Wilson.** (M). (Our own introduction). A beautiful rosy pink, with crimson center.
- X **The Pearl.** (M). Absolutely snow-white, medium-sized flower and truss. A very free bloomer.

Wagner's Special Phlox Offer No. 50

This collection consists of a choice lot of seedlings selected for their superior quality, color, and size of flower clusters. They surpass many of the named varieties in size of flower and truss. Color ranges from delicate flesh to bright pink, reds, and other beautiful shades. 15 cents each; \$1.50 per dozen. Heavy plants, 25 cents; \$2.50 per dozen.

Individual Cluster of Phlox.

Some Choice Shrubs for Immediate Planting

These shrubs we here offer are growing in pots and may be transplanted now, so if you are needing a few plants to fill any vacant spaces in your shrubbery border or wanting to make new plantings, you can do so without losing an entire season's growth. Do not wait until another season to do what you can do now. Send your order to us; it will receive our very best attention.

Prices All varieties of shrubs listed below, except where otherwise noted, 25 cents each; \$2.50 per dozen. Extra heavy plants of those varieties marked with "X," 35 cents each; \$3.50 per dozen.

Abbreviations—(I) Indicates height 1 to 3 feet; (II) indicates height 3 to 6 feet. (III) indicates height 6 to 10 feet.

Althea (Rose of Sharon). (III). July to September. The Althea bears every year without fail a profusion of blossoms. They flower at a time when few shrubs are in bloom, which makes them very valuable.

Berberis Thunbergii. (I). May. In autumn it is aglow with scarlet leaves and berries.

Caryopteris Mastacanthus. (Blue Spirea). (I). September. Blue, Verbena-like flowers. A very satisfactory shrub.

XCornus Sibirica. (III). This has deep crimson bark and it should be used in large groups for its winter effect. It shows off best when there are a number of plants together. Abundant clusters of small white blossoms are borne in early summer, followed by white fruit.

Hydrangea Grandiflora Alba. (II). One of the most beautiful and satisfactory shrubs in cultivation. Large clusters of white flowers. 35 cents. Larger, 50 cents.

Paniculata Grandiflora. (II). July, August. Flowers white, changing to pink, and borne in immense pyramidal clusters.

XKerria Japonica fl. pl. (II). Slender green branches. The double flowers are deep orange yellow, produced in profusion throughout the summer.

Japonica Variegata. (I). A low-growing variety, very alry and graceful, with dense, light green foliage, beautifully margined with white. Very ornamental. Single golden yellow flowers.

Deutzia Lemoinei Hybrida. (II). The branches of this variety are drooping and graceful. Flowers white and fragrant.

XSpirea Van Houttei. (II). The most beautiful of the Spireas. We recall no shrub that exceeds this. The graceful branches, weighted down with a wealth of white blossoms, curve till they nearly touch the ground. If limited to one variety, select this.

Anthony Waterer. (I). May to September. Heads of crimson flowers.

Callosa Rosea. A very handsome variety, blossoming in midsummer and autumn; clusters of beautiful rose-colored flowers. Valuable in every way.

Thunbergii. (I). Fluffy masses of small white flowers. Earliest to flower.

XSymphoricarpos Rubra. (Indian Currant). (I). A graceful, low-growing shrub with deep red berries clustered and crowded along its arching twigs. The only shrub to grow under large trees.

XTamarix Attractive, tall-growing shrub with fine, feathery foliage like that of Junipers. Splendid for general planting, for seashore planting or damp places. Flowers profusely and a delicate pink color.

Spirea Van Houtte.

Special Shrub Collection

TWELVE CHOICE
FLOWERING SHRUBS \$2.50

How easy it is to have attractive surroundings at the entrance to your home.

Plant Roses Now

More Roses are lost from planting too early than from other causes. These Roses we offer are now growing in pots and you will receive them in a fresh and prime condition to transplant, when they will continue their growth with undiminished vigor, supplying you with an abundance of blossoms this season. Replenish your old "Rose Bed" or plant a new one; it is your opportunity now—today. The demand will be great so do not delay—orders filled in strict rotation.

We offer growing plants—Roses that will bloom gloriously this season. Our pot grown Roses are excellent stock, so fresh and vigorous they will make you smile when planting them.

Prices All varieties of Roses except where otherwise noted, 20 cts. each; \$2.00 per dozen. Extra heavy plants of those varieties marked with "X," 40 cts. each; \$4.00 per dozen.

Apricot. An old-time favorite, very vigorous grower and free bloomer. Flowers of elegant fragrance and apricot color. Requires protection. 15 cts. each, \$1.50 per dozen.

Burbank. The color is described as cherry-crimson—It is, in other words, the very deepest and brightest pink Rose in cultivation. It is adapted for both outdoor planting and for blooming in pots.

X Champion of the World. The name describes it, for of its color it is surely a champion. Bears in greatest profusion flowers of fine size, full, deep, and double; color lovely clear, deep pink. If you want a sturdy, substantial, free-blooming rose, plant this one.

X Clothilde Soupert. The freest blooming of all Roses. The flowers of large size, are very double, pearly white; center pink. Requires protection.

Duchess de Brabant. One of the finest roses we have for general planting; color is clear pink; large double flowers. Requires protection.

Frances E. Willard. Gigantic flowers with enormous, magnolia-like petals. Color pure white; blooms in great profusion on stiff stems, with heavy foliage.

X Gruss an Teplitz. This is a Rose for everybody, succeeding under the most ordinary conditions. In color it is of the richest scarlet, shading to a velvety crimson; very fragrant, a free, strong grower, and in bloom all the time.

Hermosa. Deep pink. An old-time favorite, and one of the showiest. A Rose that always gives unqualified satisfaction.

X Kaiserin Augusta Victoria. This is the finest and largest white Rose for summer blooming. The flowers are pure white and ideal in form. Always gives satisfaction.

Mad. Abel Chatenay. A wonderfully strong, healthy growing variety, with rich, bright foliage. A grand bedding Rose. Flowers very double, with slightly recurved petals; color rosy carmine, shaded salmon. 25 cts. each; \$2.50 per dozen.

X Mad. Schwaller. A remarkable Rose, having the strength and style of the Hybrid Perpetual and the free-flowering qualities of the Tea; color, deep rosy flesh, deepening on edge of petals.

X Mrs. De Graw. Bright coral pink; flowers in clusters; very handsome; noted as a free and continuous blooming Rose; strongly resembles Champion of the World.

Madam Caroline Testout. Color is brilliant, satiny rose, deepening in center to clear red. It is of excellent substance and keeps its color well. 25 cts. each; \$2.50 per dozen.

President Taft. Undoubtedly the finest bedding Rose yet introduced. The flowers are double, very sweet-scented, and of deep pink color. Very showy and valuable for cutting. The plants are free from disease, which is another point claimed in favor of this Rose. 25 cents each; \$2.50 per dozen.

Mrs. B. R. Cant. Extremely strong-growing variety, producing heavy stems, with large, healthy foliage, and flowers almost the equal and style of Helen Gould, but more double; deep rose, with light rose center.

Wellesley. The flowers are extra large and full; color bright clear rose, reverse of petals silver rose; a vigorous grower, bearing its flowers on tall, stiff canes; very free bloomer and the flowers are of excellent substance and great durability.

Frances E. Willard.

Three Glorious Ever-blooming La France Roses

WHITE, PINK
AND RED

Deliciously fragrant, hardy, everblooming Roses. Makes no difference where you live, they are hardy; will grow and thrive vigorously. Constantly in bloom and should be in every garden.

La France (Pink). Probably the most popular Rose in cultivation. Both buds and flowers are of lovely form and grand size; color, fine peach blossom, elegantly clouded with rosy-pink.

X La France (Red). Color, lovely deep rose; a constant bloomer and one of the sweetest and best Roses for general planting.

X La France (White). A seedling of Pink La France and quite as beautiful; large, full, deep, pearly white flowers, delicately shaded soft rose.

Three Famous Cochet Roses

The real Rose-lover cannot afford to miss these particularly famous Cochet Roses. The three varieties we offer are not surpassed by any others in beauty of flowers and productiveness. They are constantly in bloom. In the extreme North good protection and mulching is very beneficial.

X Maman Cochet Pink. A deliciously sweet scented Rose and a most vigorous grower. The flowers are superb, full and double. The buds are long and pointed. The color is a rich pink, elegantly shaded rose and crimson. Very free to bloom, even as a pot plant for the house.

Maman Cochet Red. A splendid Rose for general planting. Vigorous, healthy, throwing up strong shoots, and producing great masses of blossoms, continuous throughout the season. Flowers are large, fully double and sweetly scented. Color a bright rose-red, elegantly shaded.

X Maman Cochet White. A remarkably free blooming variety. The blossoms are large, fully double, and white in color; very fragrant, and should be in every Rose collection.

Baby Ramblers

A type of Rose which is becoming very popular and is used extensively for edging beds of other Roses. They are compact, bushy and produce immense trusses of semi-double flowers from spring until frost.

Jean D'Arc. The leaves are small, dark green. Flower trusses very large and in color it is a pure milk white.

The Orleans Rose. A splendid rose for bedding. Flowers very large and are of a beautiful geranium red, shaded clear rose. 25 cts. each; \$2.50 per dozen.

Katherin Zeimet. This is a true white Baby Rambler. Flowers borne in great clusters.

For prices of above, except where noted, see top of page 24. Prices are right, and stock is fine.

Hardy Climbing Vines for Planting Now!

Why wait until fall to plant your vines when you can get plants now that can be safely shipped and transplanted and are in good growing condition? Good results can be obtained even this year with this stock. The varieties offered below are all desirable, and will give you entire satisfaction.

Akebia Quinata. Numberless bunches of violet-brown flowers. Large plants, 35 cts.; \$3.50 per dozen. Extra large, 50 cts.

Ampelopsis Veitchii (Boston Ivy). The best climber. Clings to stone wall, and also to wood or brick. 15 cts.; \$1.50 per dozen. Large plants, 35 cts. each.

Clematis Paniculata. Glossy green foliage and a mass of fragrant flowers in August and September. 25 cts.; \$2.50 per dozen.

Lonicera. Brachypoda Aurea. (Golden-Leaved Honeysuckle). Vigorous growth, golden leaves. Valuable for covering banks, bare places, etc. Flowers creamy white. Large plants, 25 cts.; \$2.50 per dozen.

Halleana (Hall's Japan Honeysuckle). White and creamy yellow flowers. 25 cts.; \$2.50 per dozen.

Lycium (Matrimony Vine). Numberless bright red berries in the fall. 25 cts.; \$2.50 per dozen.

Maman Cochet Roses.

Climbing Roses

These varieties are suitable for Pergolas, Arbors, covering fences, etc. The most select are here offered.

Climbing Clothilde Soupert. One of the very finest varieties, unequalled for quick and abundant bloom and healthy, vigorous growth. Flowers perfectly double; rich creamy white, sometimes tinted with blush. Not subject to insects or disease. Requires protection.

Climbing Kaiserin. This is, without doubt, the grandest of all white climbing Roses. Blooms continuously just as the parent, Kaiserin Augusta Victoria does.

Dorothy Perkins. A climbing Rose of strong, vigorous growth; its flowers, which are borne in clusters, are of a beautiful shell-pink, full, double, and of large size; deliciously scented.

Lady Gay. Flowers are a delicate cherry-pink, fading to a soft-tinted white.

Lamarque. Beautiful, sweet scented, pale canary yellow, almost white. One of the best climbing Roses. Requires protection.

Tausendschon. This beautiful novelty surpasses all other climbing roses concerning growth, foliage and beauty of bloom. Strong, vigorous growth and nearly thornless. The color is a beautiful pink, changing to a rosy carmine. 25 cts. each; \$2.50 per dozen.

Evergreen Vines

Euonymus. Hardy and well adapted for covering walls, rocks or trunks of trees. Also suitable for edging beds, as it can be kept closely clipped the same as box edging.

E. Radicans. Beautiful bright green foliage. Large plants, 25 cts.; \$2.50 per dozen.

E. Radicans Variegata. Variegated green and white foliage. Large plants, 25 cts.; \$2.50 per dozen.

English Ivy. Dark, glossy green leaves, and clings firmly to stone or brick walls. Thrives best in a shady position. 15 cts.; \$1.50 per dozen. Extra large, 25 cts.; \$2.50 per dozen.

Trained Specimen Trees

To meet the increasing demand for trained specimen trees for verandas, entrances, courts, and formal gardens, we always have on hand a large stock of these trees in the different shapes and sizes. For decorative purposes these stately evergreen trees cannot be excelled. Nothing can approach them as effective plants for decorating entrances, halls or piazzas. For Italian gardens or enclosed courts, they are largely used, and always in keeping with such surroundings.

Box Trees

No other evergreen has ever attained the popularity of these beautiful little trees. Their suitability to so many places as decorative plants, and the small amount of care they require to grow them, make them very desirable for the home grounds.

Box Trees Planted in Our Plant Boxes

Dignify the entrance to your home with a pair of Box Trees at your door. Those offered below are matched pairs. For the convenience of those wanting to purchase box trees already planted, we here offer some of the leading sizes planted in our Plant Boxes.

Japanese Maples

Polymorphum. Bright green dense foliage. Nice plants, \$1.00; larger, \$1.50 to \$2.00; specimens, \$2.50 to \$5.00 each.

Polymorphum Atropurpureum (Bloodred). Very showy during the entire summer. Nice plants, \$1.00 each; larger, \$1.50 to \$2.00; fine specimens, \$2.50 to \$5.00 each.

Dissectum (Cut-leaved). Leaves divided and of a rich green. 75 cents; larger, \$1.00 to \$2.00; specimens, \$2.50 to \$3.50.

Dissectum Purpureum (Cut-leaved Purple Maple). Beautiful, slender and gracefully drooping branches. Reddish in color and very attractive. \$1.00; larger, \$1.50 to \$2.00; fine specimens, \$3.00 to \$5.00 each.

WAGNER PARK EVERGREENS—Conifers

Dug and shipped with ball of earth---can be successfully transplanted even during the summer months

PINES, SPRUCE, HEMLOCK, ARBOR VITAE, more than two hundred varieties of evergreens and conifers, vie with thousands of deciduous trees and shrubs in their display of beauty at Wagner Park Arboretum, the home of the finest collection of arboreal treasures in the country. It is frequently a surprise to visitors to see the great assortment and fine specimens.

The soil at Wagner Park Evergreen Nurseries is admirably adapted to the vigorous development of fibrous roots. This enables us to "lift" each plant "in ball," or with the soil protecting the roots intact. Wagner Park Evergreens, if intelligently planted in their new location, and carefully watered during the hot months, grow almost as if they had never been moved. We have devoted particular study to the happy blending of evergreens with reference to color and shape, and

we place our experience and knowledge at the disposal of our patrons.

From out the thousands of specimens of all sizes and shapes that adorn the landscape at Wagner Park, there can easily be selected those that will furnish the desired background for any home, park, or public ground. The prices are altogether moderate.

Garden Furniture

We Here List Some Very Desirable Articles for the House, Veranda and Lawn. They are all Made in our own Extensive Factory, and Offered at Most Reasonable Prices.

We use heartwood Cypress exclusively, of which wood can be said, "Cypress is indeed the wood eternal." It lasts forever. Cypress does not shrink or swell like most woods, takes paint perfectly, and defies decay. All our boxes are finished in Flemish green, which harmonizes well with all surroundings. In formal gardens it is sometimes desirable to have them painted white, and if wanted in white we charge 15 cents extra for all sizes except boxes larger than 18 by 18 and window boxes larger than 36 inches, for which our charge is 25 cents extra. Measurements of all boxes are outside and inside dimensions.

Wagner Lawn Seat.

We Furnish Sun Dials

"Amidst ye flowers I tell ye hours."

It is strange that the Sun Dial should have been so generally neglected. It is a creature of equal sentiment and sense. You may refuse to turn the hour glass and thus deceive yourself that time flies not; but you cannot check the sun's shadow.

The columns of our Sun Dials are given several coats of the best white paint and are carefully wrapped and packed to prevent damage in shipping. Full instructions for setting up are also given. Prices: plain column with good bronze dial, \$15.00; fluted column with high grade bronze dial, \$23.50. Columns 10 inches in diameter and 42 inches high, including cap and base. Rods for fastening columns to concrete base are sent along without extra charge.

Lawn Seats

Our Lawn Seats are very handsome in design, and our efforts directed to turning out seats that are thoroughly well-made and durable. No matter how small or how large the space—in the flower garden, on the veranda, on the lawn, or elsewhere—a lawn seat will be found useful. Plain in design, but neat and very durable.

We finish these seats in white, this being the most desirable color.

PRICE OF LAWN SEATS Each Pair
Made like cut, 4 feet long, 14 in. wide....\$ 8.00 \$15.00
Made like cut, 5 feet long, 16 in. wide.... 12.00 23.00

All material used in these lawn seats is selected heartwood cypress.

Pergolas

The Pergola, or Arbor, if properly constructed, adds to the beauty of any lawn or garden. We can supply them to suit any setting, and all material complete, also give full instructions for setting up. All wood material is given one coat of lead and oil.

PRICES OF PERGOLAS.

Prices given here are for 10-inch and 12-inch columns. Measurements are from center to center of columns. Standard width is eight feet. We list the most desirable sizes, but can supply Pergolas for any location or setting.

Solid-Bored Columns.

Size of Pergola	10-in. Column.	12-in. Column
8 feet long	\$ 37.00	\$ 43.00
16 "	60.00	69.00
24 "	80.00	92.00
32 "	102.00	117.00
40 "	124.00	142.00
48 "	144.00	165.00

Madonna

The Purest of White Lilies

(LILIUM CANDIDUM)

Lilies are found in the little country dooryard as well as the millionaire's flower garden

The Lilies are a splendid class of flowers even beyond description and yet comparatively unknown. Their nodding flowers add beauty to the simplest little garden, while rich colors and the sweet perfume bring everyone to marvel at their purity and loveliness.

Best of all, they are a permanent addition to the flower garden, as they are hardy and increase and improve year after year. No one need hesitate planting them as they are of easiest culture and the best for general planting. Plant them in your hardy borders, alongside the house, or most anywhere, and they will surely give you great satisfaction. They love shade and thrive where many other plants will not grow.

Madonna (*Lilium Candidum*). The most popular of all hardy garden Lilies, blooming in late May or early June. The flowers are of the purest snow-white and very fragrant. The long, stiff stems of these flowers make them unusually fine for cutting. Our prices on these are within the reach of all. Plant one hundred or more bulbs and you will feel entirely pleased and satisfied. They are hardy in all localities and fall is the time to plant them. Large blooming size bulbs, \$1.25 per dozen; \$8 per 100. Extra large select bulbs, \$2 per dozen; \$12.50 per 100.

Lilium Elegans This is indeed an elegant variety, blooms in June. One of the finest and most showy of the highly colored flowering varieties. It is perfectly hardy in all localities and will give satisfaction wherever planted, either in full sun or in the densely shaded location. The flowers are produced on stiff stems and in great abundance—very free bloomer. The color is a rich orange scarlet with dark crimson spots on each petal. A most striking color. Blooming size bulbs, \$1.25 per dozen; \$7.50 per 100. Extra select bulbs, \$1.75 per dozen; \$10.00 per 100.
